THE BIOGRAPHY AND CONT...MPORANEOUS ASSOCIATIONS IN ART OF A...BERT DURER.

ILLUSTRATED BY

SEVENTY-FIVE SPLENDID ...NGRAVINGS BY LE KEUX AND OTHERS,

Many beautifully illumina...d and coloured under the superintendence of

MR. ...OWEN JONES,

Representing the celebrated Painted and Staine... Glass at Gouda, in Holland, the Painted Ceilings and Decorations of the Church of St. Jacques, a... ...rge; with some English Examples of Painted and Stained Glass of an earlier date, &c.

EDITED BY JOHN WEALE.

Two magnificent Vols. Imperial folio. ...blished at 10l. 10s.; reduced to 5l. 10s. Elegantly half-bound morocco, gilt leaves.

*** The many favourable notices of this spl...did book would fill a volume; the following are a few extracts:—

"This work is one of those rare productions of ... which at once extort admiration and defy criticism. It is not ... the most splendid work of the kind that has yet been attempted ... England, but it is, we believe, perfectly unique, and opens a new ...vinces in the region of decorative art to the student and amateur. ... windows at Gouda are unanimously allowed, by the best judges a... ...blest conn...isseurs, to be the perfection of that mode of painting ...and of unsurpassable beauty in regard to execution and colour... ...."—Funeral. "That is, in every sense of the word, a splendid book. That part of the volume devoted to an account of Albert Durer and his works is particularly interesting, and in the fullest and best notice of him we possess. Many magnificent specimens of painted glass are given, the plates measuring twenty inches in height, and richly coloured in imitation of the originals. Certainly more splendid examples of glass-painting could not be found. To conclude—the book is in every way worthy of patronage, and adds another to the long list of primarily works produced by private spirit in this country."—*Art-Journal.*

AN INQUI... INTO THE HISTORY OF

Ancient Glass Painting,

ESPE...ALLY IN ENGLAND;

WITH PRACTICA... HINTS ON GLASS PAINTING;

Also Observations on the Present St... of the Art; Suggestions for its Application to Particular Purposes, and as to... ...e best Means for its Advancement, &c.

BY ...N AMATEUR.

ILLUSTRATE... BY SEVENTY-FIVE PLATES.

2 Vols. 8vo. Reduced to ...—Published at 1l. 10s. In extra gilt cloth.

"A succinct description utterly fails in conveying ... ...quate notion of the elaborate research that must have been ...equisite for the compilation of these volumes, of the value of t... ...progressions that they embody, or of the archæological knowled... ...which the author has brought to bear on the subject of his ...equisition. Some of the plates are in outline, but many are col... ...ed, with a carefulness of touch and brilliancy of effect altogether ... and all are so accurate as to be available, if necessary, ... working models, from having been drawn to a scale."—*Morning Post.*

"The present work supplies a great deficiency, and treats of the subject in such a way as is likely to be useful and interesting at once to the antiquary, the amateur, and the practical artist.

"The plates have been evidently most carefully selected, with a view to show the progress of the art from the thirteenth to the seventeenth century, and in execution and getting up are inferior to none which have hitherto appeared."—*Guardian.*

WINSOR and NEWTON, 38, Rathbone-place.

TO ARCHITECTS.

COMPETITION and other DRAWINGS.—Mr. THOMAS E. BOYS, Member of the New Society of Painters in Water-Colours, and author of "The Picturesque Architecture of Paris, Ghent, Rouen, &c." and of "Londina Illustrata," offers his services in Tinting Backgrounds, Landscapes, Figures, Interiors, &c. From the long experience he has had in such subjects, he is fully aware of the points essential to be attended to. Drawings and designs lithographed in a superior manner.—Address, Mr. BOYS, 24, Albany-street, Regent's-park.

DECORATIVE PAINTING.—Mr. FREDERICK SANG, from the Royal Academy, Munich, DECORATIVE ARTIST in FRESCO, and in the various manners of Painting; whose works may be seen in the principal public buildings of the metropolis, begs to inform his patrons and the Architects in particular, that he has considerably increased his Establishment, and is now enabled to undertake, on the shortest notice, the embellishment of private and public buildings in any part of the United Kingdom, on the most reasonable terms, in any of the Classical, Mediæval, or Modern Styles.—Mr. F. SANG, Decorative Artist, 38, Pall-mall, London.

GUTTA PERCHA TUBING.—May be buried for years, without injury, and it is the most valuable for conveying water, chemicals, &c. It is perfectly valuable for liquid manure, drain, and soil pipes. Being a perfect conductor, it is not affected by the frost of winter or the heat of summer, like metal or leather. Its strength is extraordinary, a small half inch diameter tubing having resisted a pressure of 400 lbs. on the square inch, without bursting. The smaller sizes may be had in 100 feet, and the larger in 50 feet lengths. The Joints are easily made. As a conductor of sound it is most valuable for conveying messages in lieu of bells. Every variety of articles manufactured by the GUTTA PERCHA COMPANY, Patentees, 18, Wharf-road, City-road, London; and sold by their Wholesale dealers.
